INDEX TO VOLUME 33

Africa, hemoglobin polymorphisms and malaria in, 205, 206-7, 215-7, 262-3
Age—and days of hospitalization after surgery 56-61, at closure of epiphyses in American Indians 66-81, at menarche in South African Bantu 181-90, 250-61, distribution of Caingang Indians of Brazil 112, 114

Beta-amino-isobutyric acid excretion in Pacific populations 355-62
Birth order—and hemoglobin level 18-9, of twins and psychological test scores 175-9
Birthplace of persons married and of parents of persons born in Ann Arbor, Michigan 223-36
Blood groups—ABO-Rh interaction and hemoglobin in infants 11-24, among Guatemala Indians 319-34, and language 34-40, Diego 270-1, 330-1, 332, D^u variant in New Guinea 29-30, 33-4, of New Guinea natives 25-41
Blumberg, B. S., 355-62
Bregni, E., 319-34
Bresler, J. B., 11-24
Brožek, Josef 194-7, Book Notices 91-7, 198-203, 377-83
Burrell, R. J. W., 250-61

Clark, Philip J., 163-80, 223-36
Collins, Emma H., 293-318
Consanguineous marriage among Caingang Indians of Brazil 123, 128

Demography of the Caingang Indians of Brazil 110-30
Diseases, duration of—infectious hepatitis 46-7, 52, inguineal hernioplasty 56-61, measles 43-6, mumps 46, 48, 50, pilonidal cyst 49-50, pneumonia 52-6, streptococcal sore throat 50-1; malaria and balanced human hemoglobin polymorphisms 205-19

Entropy and evolution 99-109
Epiphyses, order of closure of 73-80
Evolution, 369-76—and the thermodynamic imperative 99-109, immunochemical differences in, 131-62, social and structuring 102-8

Fertility among Caingang Indians of Brazil 118, 120-3, 128

Gartler, S. M., 355-62
Glottochronology and blood group distributions in New Guinea 37-40
Goodman, Morris, 131-62
Growth, studies of, 85-7, 87-9, 191-2, tempo and harmony of, 283-92
Guinsburg, Sonia, 237-49, 384
Guzmán, M. A., 319-34

Hair, middle phalangeal, distribution and inheritance of, in white population of São Paulo, Brazil 237-49, 384
Handedness 293-318
Healy, M. J. R., 250-61
Hemoglobin—balanced polymorphism in varieties of human, 205-19, C and E 210-7, level in infants and ABO-Rh blood groups of the parents 11-24
Higginson, J., 181-90

Illness, duration of 42-65
Immunization, iso-, and auto-, role in human evolution of 136-51
Immunological incompatibility, maternal-fetal 136-45
Indians, American—blood antigens among Guatemalan 319-34, demography of Caingang of Brazil 110-30, epiphyseal union in bones of, from Indian Knoll, Kentucky 66-81
Interbreeding—across linguistic barriers in New Guinea 31-2, 34-6, interracial, among Caingang Indians of Brazil 112, 113, 115-6

Johnston, F. E., 66-81

Karpinos, B. D., 335-54
Kooptzoff, Olga, 25-41

Linguistics and blood groups 34-40
Livingstone, F. B., 205-19, 262-3
Luykx, H. M. C., 42-65

Marriage, interracial and exogamous marriage among Caingang Indians of Brazil 112, 113, 115-9, 126-7
Menarche, age at, in South African Bantu 181-90, 250-61
Migration—into the human breeding population of Ann Arbor, Michigan 223-36, of Caingang Indians of Brazil 116-20
Mortality among Caingang Indians of Brazil 120, 122, 127-8
Murray, Betty L., 42-65

Natural selection—in man 278-9, of human hemoglobins 205-19, of immunochemical differences 136-7
New Guinea, blood groups of natives in Kainantu, 25-41

Oettlé, A. G., 181-90

Phenylthiourea (P. T. C.), differential taste responses to 220-2
Placentation, role in evolution of 141-5
Polgar, Steven, 99-109
Population size, breeding—among Caingang Indians of Brazil 124-6, 128; of Ann Arbor, Michigan 232-5
Primates, evolution of 131-59, serum proteins in 152-4, 155-8, transferrins in 153, 155, 157
Proctor, C. H., 163-80
Psychological tests and anthropometric characters in twins 163-80

Race 263-5, 363-5

Saldanha, P. H., 237-49, 384
Salzano, F. M., 110-30
Sánchez, Margarita, 319-34
Scrimshaw, N. S., 319-34
Sex differences in epiphyseal closure 73-8
Sex ratios of—offspring of pilots 1-10, Caingang Indians of Brazil 112, 114
Sickle-cell gene, maintenance of, in populations 205-10
Spuhler, J. N., 223-36
Snyder, R. G., 1-10
Stature and weight 335-54, growth in, 283-92

Tanner, J. M., 250-61
Taylor, Charles W., 220-2
Teeth, age at calcification of third molar, in American Indians 67-72
Tejada, C., 319-34
Thalassemia and resistance to malaria 205, 206, 213, 214
Thermodynamics, second law of, and evolution 99-109
Transferrins in macaque monkeys 153, 155, 157
Twins—genetic basis of morphological differences between 275-8, psychological tests and anthropometric measurements of 163-80

Vandenberg, S. G., 163-80
Variability of protein structure related to genetic variability 132-6

Walsh, R. J., 25-41
Watson, J. B., 25-41
Weight, body, and stature 335-54, growth in 283-92
Wolański, Napoleon, 283-92

Zigas, V., 25-41
